MINIATURES AND SINGLES

These popular small Flowering Dahlias are formed like the large dahlias but from two to four inches across. Prolific bloomers and fine cut flowers. Excellent for baskets and bouquets as they arrange easily and artistically. Culture same as for pompoms. Do not disbud. We have a fine collection of Miniatures, selected for color and keeping qualities. Many were imported from Holland by us before the war; are good clean stock which has never been forced. Average height, 2½ to 3 feet.

50 cents each. Collections, your selection, 5 for \$2.00, 12 for \$4.00.

POM POMS

Small type Ball Dahlias, 1 to 2 inches across. These little beauties are highly recommended for cutting. Ideal for baskets, bouquets and arrangements. Easily grown. Can be planted as close as 2½ feet apart and work nicely in background plantings. Require very little fertilizer but do like water during dry weather. Pinch out top of plant when it gets four or five pair of leaves; this produces a nice bushy plant with loads of flowers. Average plants 2½ to 3 feet tall and need no disbudding. Should be staked and tied to prevent wind damage.

25 cents each. 1 dozen, your choice, \$2.50, post paid.
